

Akoya Lighting Poles

Akoya is a contemporary design which suits the clean aesthetics with appeal simplicity and elegance.

Features:

- Akoya pole with single arm is designed for street lighting, suitable for various luminaires.
- This architecturally designed pole is structurally sound, engineered to withstand adverse conditions. Pole design parameters vary depending on the type of bracket and loading factor.
- All pole sections are swaged and joint together using special v groove technique by certified welders using high end MIG welding processes.
- Built-in control box with cast aluminium service door including safety rope.
- The control gear tray is prewired with MCB, terminal connectors for loop-in loop-out arrangement.

ID	Arms	A	H
